AUDITOR'S CERTIFICATE

This is to certify that I have examined the books, vouchers, bank statements and other financial records of the school district of Gilsum, of which the above is a true summary for the fiscal year ending June 30, 1949 and find them correct in all respects.

ARTHUR F. TURNER, Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Gilsum:

I herewith submit my fifth annual report as superintendent of your schools:

We were sorry to lose Mrs. Putnam last spring. During her year and half she had done much to improve the morale and bring up the averages of the upper grades. Her place is being very adequately filled by Mr. Hanagan.

The P.T.A. deserves much credit, not only for its material gifts to the school, but for its bringing together of the townspeople for a common cause—the improvement of education in Gilsum. A good community project would be to paint the outside of the schoolhouse. The district would supply the paint, and the people could put on a painting-bee and soon have a good-looking building. This has been done in a number of communities, recently, and the people have had fun, accomplished something worthwhile, and saved the town some money.

The toilets in the school are a disgrace. The State Board of Health has withheld condemning them until some action is taken at this annual meeting. Unless the district votes to replace them, the State may declare them condemned and require their replacement. In that case the district would be liable for repairs. It seems better to plan on doing this necessary job as soon as possible than to be forced into it.

We were able to obtain the services of Dr. Laidlaw for a physical examination of every pupil in the fall. We are still trying to obtain the services of a school nurse, but as yet have been unsuccessful.

The only changes in the budget for next year are in teachers' salaries and high school tuition. We expect to have twenty-six pupils in high school next year. It is too bad that more of your young people do not take advantage of the opportunities offered for high school training. Only about three-fourths of your elementary school graduates enter high school, and many of these do not finish. The tuition rate for next year is \$200.00. It is impossible to determine what the state aid figure will be another year. We can only use last year's figure and hope for some added assistance from this source.

During the past few months we have completed work on the new front door, repaired many broken window lights in the classrooms, and storm windows, redone the blackboards, and completed installation of the furnace.

FOREST FIRES—OUR MOST SHAMEFUL WASTE

Everyone apparently fears fires but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste".

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is **PREVENTION**—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved **ONLY** if **YOU** and **YOU** cooperate with them. It is worth **YOUR** effort and can be accomplished by:

- (1) Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
- (2) Securing the required written permit from the warden when the ground is not covered with snow.
- (3) Insisting that others be careful and comply with burning requirements.
- (4) Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

F. J. BAKER,
District Chief.
